

Alternative Heat Ltd.

Environmental Policy Statement

Alternative Heat Ltd recognises that good management includes all environmental matters and ensures that environmental protection and the prevention of pollution are part of all decisions, policies and practices. We encourage environmental responsibility through all levels of our organisation, by employee awareness, environmental communication and training.

The company undertakes to:

- Comply with all relevant environmental legislation and regulations.
- Provide for the publication of the Environmental Policy internally, by posting the document on the premises of the company and externally to all interested parties, on request.
- Provide for the setting and achievement of environmental objectives and targets for the company, and for the publication of the environmental objections and targets by posting of the document in the premises of the company.
- Maintain efforts to achieve continual improvement in the environmental performances of the company, the starting point being to comply fully with the requirements of ISO14001:2015.
- Ensure that operations at sites are carried out with full controls. E.g. prevention of pollution/discharge to watercourses, appropriate fuel and chemical storage, waste management and associated activities.
- Select suppliers who themselves take responsibility for environmental issues.
- Foster openness, dialogue and discussion with employees, clients, suppliers, contractors and all interested parties regarding the environmental performance and the environmental objectives and targets of the company
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the environmental policy, relevant environmental legislation and the requirements of the company.

A handwritten signature in black ink, appearing to read 'C. McMullan', written over a horizontal line.
